Community Tools (List)

brewpkg

brewpkg is a macOS app that lets you easily create installer packages. You drag & drop your app, choose options (install location, code signing, template, format like DMG/ZIP), and it builds a ready-to-install .pkg or .dmg for distribution.

ugurkocde/brewpkg: brewpkg

Intune Log Reader

Intune-Log-Reader is a macOS app for viewing and analyzing Microsoft Intune MDM log files.
